FEATURES OF THE SYSTEM

CHEMICAL FREE WATER MIST
Mist Cannon uses no chemicals or additives and is completely environment friendly.

FLEXIMIST(TM) SYSTEM
Regulate the amount of water used for dust control thus saving water in low dust conditions.

CENTRINOZ(TM) NOZZLE
Unique central nozzle with larger aperture to avoid choking. Can be used with dirty water.

ADJUSTABLE ROTATION
Mist Cannon can be set to automatically oscillate between a certain angle or up to 350 Degrees.

REMOTE OPERATIONS
Operate Mist Cannon from a distance using a wireless remote with amazing range.

SUITING EVERY BUDGET
If you have a budget constraint, let us know. We will do our best to find a solution within your budget.

EXCELLENT SERVICE SUPPORT
Mist Cannon is very economical to maintain and our quick and efficient service team will try and ensure that your system has minimum downtime.

Features will vary with the version / model of the system

Unique Truck Mounted System (TMS) for total flexibility

The Mist Cannon Truck Mounted System gives you the flexibility of using the system even when there is no water or electrical connections available on site.

It is a complete unit with genset, Mist Cannon and water tanker on a truck.

It is a completely mobile system and comes with an optional additional pump for connecting external hose to the tank.
